9. Description: This three bay by three bay, two-and-a-half story frame, L-shape house is now being used as offices. The house has white clapboarded exterior walls and at the gabled ends, staggered butt shingles. The north-east (front) porch wraps around to the southeast elevation. It has a flat roof supported by seven columns. The northeast door is set into a projecting pavilion. There are one-over-one double-hung windows throughout the house. At the southwest and northeast gable ends there are nine light casement windows. There is a two story bay window on the southeast elevation. On the northwest elevation there is a two story projecting pavilion at the second and third levels. The house has a hipped roof with cross gables covered by **pressed** metal roofing.
10. Significance: St. John's Episcopal Church is the oldest Episcopal Church building in continuous use in Montgomery County. It was established at Mechanicsburg, now Olney, Maryland in 1842, and is one of only two historic structures remaining at the crossroads. The Church was organized as a separate congregation within St. Bartholomew's Parish, Laytonsville, and at first shared its Rector with that Church and Christ Church of Prince George Parish in Rockville. The Church was established because the great distances between churches deprived many members of regular attendance.

It is known that work began on the Church in 1842 and was completed, paid for and consecrated in 1845, although church records 1842-1910 were destroyed by fire. In 1910 the Church building was moved from its location in the cemetery to its present site facing Route 108 (Olney-Laytonsville Road) with the entrance to the property on this road. At that time the building was enlarged, retaining the original frame building. At present, 1979, the Church building is again being enlarged but continues to retain the original building and the bell tower added in 1910.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This three bay by four bay, one-and-a-half story church faces south. Built on fieldstone foundations, this wooden frame church has beige stucco exterior walls. There is a three story bell tower on the south elevation. Three poured concrete steps, flanked by wrought iron hand-rails, lead to the double wooden paneled doors surmounted by a stained glass tympanum window set into the base of the tower. The east and west elevations, first level, of the tower have lancet windows (presently removed as part of the construction work underway at the time of inspection). At the second level, on east, south, and west elevations, there are round windows. At the third level of the tower, a large iron bell is enclosed on all four elevations by triple lancet openings. The tower has a low hipped roof surmounted by a golden cross.

The church has one-over-one double-hung stained glass lancet windows. The gable roof is covered by diamond-shaped black asbestos shingles. The cornice line is boxed and returned. There is an exterior stuccoed stove chimney on the east elevation.

The construction work going on at the time of inspection involved the removal of the north elevation. The church is being enlarged at the north end.

St. John's Church when built in 1842 was a frame building with four windows on each side. It is of "barn" construction of native timbers. It was moved on rollers by mule team from within the cemetery to its present location in 1910. Additions were then made at each end of the original building including a recessed chancel, sacristy and Dutch bell tower. The Church is now stuccoed, modified Gothic. The present renovation of the Church building will enlarge the building by the addition of a wing across the back of the original building so that it forms a "T" and is joined to the parish hall by a glass enclosed entryway. The building continues to incorporate the original building as the main portion of the Church and retains the bell tower added in 1910.

BUILDER/ARCHITECT

STATEMENT OF SIGNIFICANCE

St. John's Episcopal Church is the oldest Episcopal Church building in continuous use in Montgomery County.¹ It was established at Mechanicsburg, now Olney, Maryland in 1842, and is one of only two historic structures remaining at that crossroads. The Church was organized as a separate congregation within St. Bartholomew's Parish, Laytonsville, and at first shared its Rector with that Church and Christ Church of Prince George Parish in Rockville. The Church was established because the great distances between churches deprived many members of regular attendance.

A Vestry was "elected and constituted -- under the law of said State proposed in 1802".² The Vestry of St. John's Church, Montgomery County, a body Corporate duly incorporated" included Richard Holmes, William B. Magruder, Thomas J. Bowie, E. John Hall, Enoch B. Hutton, Remus Riggs, Ephraim Gaither and John M. Darby, landowners in the area.

Ignatus Waters and his wife Eliza gave 1.24 acres of land, part of a tract called "Charles and Benjamin".³ A right of way for use as a road from the northeast corner of the property to the Washington-Brookeville Turnpike, now Route 97 (Georgia Avenue) is a part of the tract and was the original entrance to the property. It is still kept open.

It is known that work began on the Church in 1842 and was completed, paid for and consecrated in 1845 although church records 1842-1910 were destroyed by fire. In 1910 the Church building was moved from its location in the cemetery to its present site facing Route 108 (Olney-Laytonsville Road) with the entrance to the property on this road. At that time the building was enlarged, retaining the original frame building. At present, 1979, the Church building is again being enlarged but continues to retain the original building and the bell tower added in 1910.

The Church grounds have been expanded over the years by land given or purchased so that there are approximately ten acres on which are located a parish hall, parish day school, and custodian's house in addition to the Church and cemetery.

PRELIMINARY DRAFT

AMENDMENT TO THE APPROVED AND ADOPTED
MASTER PLAN FOR HISTORIC PRESERVATION IN
MONTGOMERY COUNTY, MARYLAND

NORTHERN AND EASTERN
MONTGOMERY COUNTY HISTORIC RESOURCES

Including sites located in the Olney, Sandy Spring,
Aspen Hill, Norbeck and Burtonsville Areas

March 1986

An amendment to the 1980 Olney Master Plan, 1980 Sandy Spring/
Ashton Special Study Plan, 1970 Aspen Hill Master Plan, and the
1981 Eastern Montgomery County Master Plan; being also an
amendment to the General Plan for the Physical Development of the
Maryland-Washington Regional District and to the Master Plan of
Highways within Montgomery County, Maryland.

THE MARYLAND-NATIONAL CAPITAL PARK AND PLANNING COMMISSION

8787 Georgia Avenue
Silver Spring, MD 20910-3760

14741 Governor Oden Bowie Drive
Upper Marlboro, MD 20772-3090

IMPLEMENTATION

Once designated on the Master Plan for Historic Preservation, any substantial changes to the exterior of a resource or its environmental setting must be reviewed by the Historic Preservation Commission and a historic area work permit issued. The Ordinance also empowers the County's Department of Environmental Protection and the Historic Preservation Commission to prevent the demolition of historic buildings through neglect.

It is the intent of the Master Plan and Ordinance to provide a rational system for evaluating, protecting and enhancing Montgomery County's heritage for the benefit of present and future residents. The accompanying challenge is to weave protection for this heritage into the County's planning program so as to maximize community support for preservation and minimize infringement on private property rights.

THE AMENDMENT

The purpose of this Preliminary Draft Amendment is to consider the Montgomery County Historic Preservation Commission's recommendations that the following sites be designated on the Master Plan for Historic Preservation and protected under the County's Historic Preservation Ordinance, Chapter 24A of the Montgomery County Code. A copy of the Ordinance is provided in Appendix B of this document.

(NOTE: Unless otherwise specified in the Preservation Commission's nomination, the recommended environmental setting for each site is the entire parcel on which the resource is located as of the date it is designated on the Master Plan as defined in Section 24A-2 of the County's Preservation Ordinance. Where additional buildings of historical or architectural importance are associated with a site, these buildings are noted in the nomination as being part of the recommended setting.)

<u>Atlas #</u>	<u>Site</u>	<u>Location</u>
15/55	Spencer/Carr House	2420 Spencerville
-	Dating from 1855 with a rear section added in the 1870's, this three-story house is distinguished by three over three windows on the third floor and a one-story porch with bracketed pillars on the front facade.	
-	Significant as an example of the "Spencerville style", a local style characterized by a special grouping of architectural detail most notably half windows on the third story extending into the boxed cornice and roof line.

SUBJECT: Preliminary Draft Amendment to the Master Plan for
Historic Preservation: Northern and Eastern
Montgomery County Resources

I am pleased to transmit to you this Preliminary Draft
Amendment to the Master Plan for Historic Preservation:
Northern and Eastern Montgomery County Resources.

This document contains the recommendations of the Montgomery County Historic Preservation Commission on approximately 80 historic sites located in the Olney, Sandy Spring, Aspen Hill, and Burtonsville areas of the County.

The Montgomery County Planning Board will hold a public hearing on this Preliminary Draft Amendment on Monday, April 21, 1986, at 7:30 P.M., in the Auditorium of the Montgomery Regional Office at 8787 Georgia Avenue, Silver Spring, Maryland.

Should you have any questions concerning this specific Preliminary Draft Amendment, please do not hesitate to contact Marty Reinhart at 495-4565.

Attachment

23/98-4³

St. John's Episcopal Church 3427 Olney-Laytonsville Rd.

- One and one-half story wooden frame church dating from 1842 with fieldstone foundation, stucco exterior walls, stained glass lancet windows, and featuring a three-story bell tower which was added to the church in 1910.
- Oldest Episcopal Church building in continuous use in Montgomery County and one of only two structures remaining of Olney's historic crossroads.
- The recommended setting includes the cemetery associated with the church.

23/103 John D. Berry House 17201 Palomino Court

- Built between 1866 and 1876 this two and one-half story frame farmhouse consists of four distinct wings and is illustrative of the evolution of rural vernacular architecture in Montgomery County.
- The recommended setting incorporates a number of significant outbuildings including a stone carriage house, a frame bank barn and other smaller outbuildings.

23/106 Oakdale Emory United Methodist Church Georgia Avenue and Emory Grove Rd.

- Constructed in 1914 -- One and one-half story frame church exhibiting elements of Shingle style architecture including wooden shingles on the gable ends which feature large, stained glass windows in a quatrefoil designs and a bell tower with six sided, spire roof.
- Seat of a congregation in continuous existence since 1801, the church is an unusual example of Shingle style architecture and important as a last vestige of the historic Oakdale community.
- The two parsonage buildings on the church property are excluded from preservation as part of the setting.

23/107-1 Hyatt/Jones House 16644 Georgia Avenue

- Circa 1870's -- two-story frame house important as a superb and well maintained example of Gothic Revival architecture typical of that constructed in Montgomery County from the mid-nineteenth through the early twentieth centuries.
- Historically, important as a last vestige of the historic community of Oakdale.

DESCRIBE THE PRESENT AND ORIGINAL (If known) PHYSICAL APPEARANCE

The building is a stuccoed frame structure with a central entrance tower flanked by gothic windows. The tower has a three story elevation with a double doorway with an arched, glazed tympanum, a round window above, and an open bell cote above the cornice. The sidewalls have five gothic windows with pilasters dividing the bays. The cornice returns into the gable end. The apse is a lower, rectangular addition on the north end.

On the interior, the church has a central aisle. The sanctuary is separated from the choir by three gothic arched openings.
